

supplying the water to the facility.

36. The onshore beauty-shop/fitness-gymnasium facility of Claim 35, further comprising a fish breeding plant and means for supplying deep-sea water to the plant from drainage of the beauty-shop/fitness-gymnasium facility.

NE 37. The onshore pool of Claim 23, further comprising a fishing pond and means for supplying deep-sea water to the pond from drainage of the pool.

38. The onshore pool of Claim 23, further comprising a hydroponic facility and means for supplying deep-sea water to the hydroponic facility from drainage of the pool.

REMARKS:

The present application was filed under the Paris Convention claiming priority of a Japanese prior application. The original claims were simplified to eliminate the many multiple dependencies that were present in the Japanese application, but were not redrafted for closer compliance with U.S. practice. The claims submitted herewith have been redrafted and expanded to embrace the essence of the original claims.

A check for \$162 is enclosed to reflect the additional fee for claims in excess of 20 (38 total claims instead of 7; the independent claims are reduced from seven to five). Please charge any other cost associated with this response to our Deposit Account No. 02-2451.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read 'Antonio R. Durando'.
